TEETH-IN-A-DAY

The Elegant, Natural Looking, Teeth Replacement Solution

Are You Missing Your Upper and Lower Teeth? Are You Unhappy with Your Dentures?

If you are missing your upper and lower teeth, or if you are unhappy with your dentures, you may be a candidate for Teeth-In-A-Day (also called All-On 4 dental implants).

Teeth-In-A-Day look, feel, and function like natural teeth because we use dental implants that act as anchors to attach to a natural looking, more permanent set of replacement teeth.

With Teeth-In-A-Day, you'll literally come out of the dental chair with a new set of teeth that are fully functional. It's a healthier, natural look that's more cost effective, and will last much longer than dentures, bridges, and partials.

Are You a Candidate for Teeth-In-A-Day?

Learn more. Schedule a consult and talk to Dr. Bonine about your treatment options. Our caring staff have years of oral surgery and dental implant experience to help you make an informed decision.

Your Comfort is Paramount

We use the safest, state-of-the-art anesthesia. Our Frank Lloyd Wright inspired facility and its natural environs will help your body and mind relax. We are located in a peaceful setting overlooking acres of natural woodlands and a forest pond.

What You Need to Know About Teeth-In-A-Day

The Truth About Teeth Loss

If you have experienced teeth loss you are not alone. In fact, as we all age, tooth loss becomes extremely common among adults. More than 35 million people in America are missing some of their upper or lower teeth, or both.

But, it's important to have a full set of functioning teeth. Your teeth play an important role in your overall health and self-confidence. They allow you to stay healthy and remain active as you age.

When you have a full set of functioning teeth, you can enjoy the foods you love. You can choose to eat a healthier diet. When you have an attractive, natural-looking smile you feel more confident.

The Benefits of Teeth-In-A-Day

A Healthier Diet

Teeth-In-A-Day allow you to enjoy a healthier and more varied diet.

You'll taste your food again.

There will be no need to avoid certain foods that are too hard or too crunchy.

You'll be able to bite down naturally and enjoy your favorite foods again.

Go ahead, take a bite out of that crisp, juicy apple.

Improve Appearance and Self-Confidence

Tooth and bone loss can make your face look older than you really are.

Teeth-in-a-day prevents jaw bone deterioration and helps to restore your facial features.

You'll look better.

You'll get your smile back.

You'll feel better about yourself.

You'll be able to eat and talk with confidence.

More Cost-Effective than Dentures, Bridges, and Partials

Over a lifetime, and compared to the traditional options like dentures, bridges, and partials, the Teeth-In-A-Day solution is incredibly cost effective.

More Comfortable and Convenient Than Dentures

Unlike dentures, your new teeth will be permanently anchored to the dental implants not your gum tissue.

Teeth-In-A-Day are more comfortable in your mouth because they do not press down on your gums.

You will not experience the common complaints that denture users have like an uncomfortable rubbing, or sore areas in your mouth.

Unlike dentures, there's no need to fear your teeth moving or slipping out of position when you eat or talk.

Teeth-In-A-Day can not be taken out at night and do not require messy adhesives.

Teeth-In-A-Day Is Fast

For most patients, the procedure of extracting teeth, placing implants, and placing prostheses can be done in a single visit (after planning).

You'll walk out with a full set of natural looking, fully functioning teeth, and a beautiful smile.

Long Lasting

Teeth-In-A-Day:

- They have to be brushed and cleaned just like natural teeth.
- You'll need to follow your after care procedures as instructed.
- You'll need to visit your dentist regularly.
